

***Industry Credentials for Teachers
Seeking an Initial Virginia License with Endorsement(s)
in an Area of Career and Technical Education***

Guidance Document

**§22.1-298.1.A., D.6, Code of Virginia
Effective July 1, 2014**

Amended and Re-enacted by the 2015 General Assembly

Effective July 1, 2015

**INDUSTRY CREDENTIALS FOR TEACHERS
SEEKING AN INITIAL VIRGINIA LICENSE WITH ENDORSEMENT(S) IN
AN AREA OF CAREER AND TECHNICAL EDUCATION
Guidance Document**

BACKGROUND INFORMATION

Industry credentials that are eligible for teachers seeking an **initial** teaching license with endorsements in the area of career and technical education (CTE) are derived from the Virginia Board of Education-approved list of industry certifications, occupational competency assessments, and state licenses for high school students. For test validity and security reasons, not all issuing organizations allow teachers to take the student examinations.

In Virginia, industry credentials are defined as:

- State-issued professional license, required for entry into a specific occupation as determined by a Virginia state licensing agency (e.g., Licensed Practical Nurse (LPN), Emergency Medical Technician, Pharmacy Technician);
- Full Industry Certification, from a recognized industry, trade, or professional association validating essential skills of a particular occupation (A+ Certification Examinations, Microsoft Technology Associate (MTA), Microsoft Office Specialists (MOS)
- Pathway industry certification, from a recognized industry, trade, or professional association that validates essential skills of an industry. These certifications may consist of a suite of examinations from entry level to full certification (e.g., CISCO Certified Network Associate Examinations, A+ Certification Examinations, Automotive Service Excellence); and
- Occupational competency assessment, a national standardized assessment of skills/knowledge in a specific career and/or technical area (e.g., SkillsUSA, NOCTI).

To meet the Board of Education criteria and utilize the industry credentialing for the purpose of earning student-selected verified credit, the approved industry credentialing assessments must meet the following criteria:

- the test must be standardized and graded independently of the school or school division in which the test is given;
- the test must be knowledge-based;
- the test must be administered on a multistate or international basis, or administered as part of another state's accountability assessment program;
- to be counted in a specific academic area, the test must measure content that incorporates or exceeds the Standards of Learning (SOL) content in the course for which verified credit is given;
- industry certification or licensure examinations that are approved to satisfy the requirements for the Board of Education's Career and Technical Education Seal or the Board of Education's Seal of Advanced Mathematics and Technology will satisfy requirements for student-selected verified credits;
- the teacher and/or the career and technical education program must be certified by the issuing organization relative to the industry certification or license; and
- a standard credit may not be verified more than once.

More than 400 state-issued professional licenses, industry certification examinations, and occupational competency assessments have been approved by the Virginia Board of Education. These certifications are reviewed and approved annually; credentials may be updated, added, or

removed if they are outdated and no longer meet the Board's goals. Experienced CTE teachers and industry panels are involved in the annual review process and provide recommendations that are presented to the Board of Education for approval.

HOUSE BILL 2137 REQUIREMENT

The 2015 General Assembly passed [House Bill 2137](#) that amends and re-enacts Section § 22.1-298.1 of the *Code of Virginia* regarding teachers seeking an **initial** license in an area of career and technical education, effective July 1, 2015.

The 2015 legislation states, in part, the following (new language from HB 2137 in italics):

1.A. As used in this section:

"Industry certification credential" means *an active career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.*

D.6. Every teacher seeking *an initial license in the Commonwealth* with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement. *If a teacher seeking an initial license in the Commonwealth has not attained an industry certification credential in the area in which the teacher seeks endorsement, the Board may, upon request of the employing school division or educational agency, issue the teacher a provisional license to allow time for the teacher to attain such credential.*

Related legislation, [House Bill 758](#), was first enacted in the 2014 General Assembly that amended and re-enacted Section § 22.1-298.1 of the *Code of Virginia* regarding teachers seeking **initial** licensing in the area of career and technical education, effective July 1, 2014.

The 2014 legislation stated, in part, the following:

1.A. As used in this section:

"Industry certification credential" means *a career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a state professional license, or successfully completing an occupational competency examination....*

D.6. *Every teacher seeking initial licensure with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement.*

DIRECTIONS FOR SELECTING INDUSTRY CREDENTIALING ASSESSMENTS

There are eight broad career and technical education (CTE) areas: Agricultural Education; Business and Information Technology; Family and Consumer Sciences Education; Health and Medical Sciences Education; Marketing; Military Science; Technology Education; and Trade and Industrial Education. Within each broad CTE area there are specific endorsement areas for which teachers may apply for an **initial** Virginia teaching license (e.g., the endorsement areas within Agricultural Education are: Horticulture; Agriculture Machinery Service; Landscaping Technology; and Veterinary Aide).

Directions for obtaining information on the Board of Education-approved industry credentials that are eligible for teachers who are seeking an initial Virginia teaching license with an endorsement in an area of CTE are as follows:

- **Locate** the yellow highlighted “broad” CTE area of interest in the chart.
- **Identify** the CTE endorsement area for which you are submitting an application for an initial teaching license to the Virginia Department Education, Division of Teacher Education and Licensure. (Refer to the third column, CAREER AND TECHNICAL EDUCATION (CTE) ENDORSEMENT AREAS.)
- **Click** on the name of an industry credential that matches the appropriate CTE endorsement area to obtain contact information and additional testing details. In many instances, several credentialing assessments may be listed from which you may choose one to complete.
- **Arrange** to take the credentialing assessment as directed by the issuing organization or testing provider.

If you have any questions about the teacher-eligible industry credentials, please contact the Virginia Department of Education, Office of Career, Technical, and Adult Education at cte@doe.virginia.gov or by telephone at (804) 225-2052.

AN AREA OF CAREER AND TECHNICAL EDUCATION**

FREQUENTLY ASKED QUESTIONS AND ANSWERS

- Q1. Do I have to meet the industry credential requirement for licensure if I already hold an active Virginia teaching license with an endorsement in career and technical education, such as Marketing Education?**
- A1. The requirement is for teachers applying for initial licensure in Virginia on or after July 1, 2014. Since you have a Virginia teaching license that was issued before July 1, 2014, this licensure requirement does not apply to you.**
- Q2. Is there an option for a teacher seeking an initial Virginia license with an endorsement in an area of career and technical education who has not earned an industry credential in the area in which he/she seeks endorsement but has been offered employment by a Virginia public school division?**
- A2. Yes, the employing Virginia school division may request the Board of Education to issue a provisional (three-year nonrenewable) CTE teacher license. This provision will allow time for the CTE teacher to earn a Board-approved industry credential in the area of endorsement.**
- Q3. Is the approved list for teachers seeking an initial license the same as the Board-approved list for Virginia public high school students?**
- A3. No, the list of industry credentialing examinations for teachers seeking initial licensure with an endorsement in an area of career and technical education is not the exact same list as that approved for Virginia public high school students. For test validity and security reasons, not all issuing organizations allow teachers to take the student examinations.**
- Q4. Where can I learn more about the industry credentialing examinations and where they are administered?**
- A4. Information on all approved industry credentials for teachers seeking initial licensure with an endorsement in an area of career and technical education is linked to the [Virginia Department of Education website](#). By clicking on each industry credential in the chart, you may obtain additional testing information such as contacts for the issuing organization, examination cost, testing methods—online or paper/pencil, number of test items, testing accommodations, pre-test availability, and location(s) for taking the test.**
- Q5. How often is the list of industry credentials updated for teachers seeking initial licensure with an endorsement in an area of CTE?**
- A5. The Virginia Department of Education updates the teacher-eligible list annually (late spring) after the student list of industry, professional, trade association certification examinations and occupational competency assessments has been reviewed and approved by the Virginia Board of Education.**

The update may consist of technical changes to the credential names, additions of new credentials, and deletions of outdated credentials. Industry, professional, and trade association certifications are continually being revised or discontinued to stay current with technology and new techniques. These changes may be such that individual certifications are no longer available, no longer meet the Board of Education’s criteria for diploma seals or student-selected verified credit, or require additional criteria such as work experience beyond high school.

**INDUSTRY CREDENTIALS FOR TEACHERS
SEEKING AN INITIAL LICENSE WITH ENDORSEMENT(S) IN
AN AREA OF CAREER AND TECHNICAL EDUCATION**

FREQUENTLY ASKED QUESTIONS AND ANSWERS

- Q6. How do I show proof of passing a Virginia Board of Education-approved industry credentialing examination for initial licensure?**
- A6. Upon successful completion of the industry certification examination, a certificate or other written documentation is provided by the issuing organization directly to the test taker. This certificate or documentation must be included in the [Application for Virginia License](#). Additional information to assist teachers seeking initial licensure with an endorsement in the area of career and technical education can be accessed in the most current [Superintendent’s Memorandum](#).**

2017-2018 VIRGINIA TEACHER-ELIGIBLE INDUSTRY CREDENTIALING ASSESSMENTS

The 2015 General Assembly approved HB 2137, which permits the Board of Education, upon request of the employing school division or education agency, to issue a provisional license to a teacher seeking an initial license in the Commonwealth who has not attained an industry certification credential in the area in which the teacher seeks endorsement.

The 2014 General Assembly approved House Bill 758 that amends and re-enacts Section 22.1-298.1 of the *Code of Virginia* regarding initial licensing in the area of career and technical education. The law became effective July 1, 2014. House Bill 758 states, in part, the following:

1.A. As used in this section: "Industry certification credential" means a career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a state professional license, or successfully completing an occupational competency examination....

D.6. Every teacher seeking initial licensure with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement.

2017-2018 VIRGINIA TEACHER-ELIGIBLE INDUSTRY CREDENTIALING ASSESSMENTS

The 2015 General Assembly approved HB 2137, which permits the Board of Education, upon request of the employing school division or education agency, to issue a provisional license to a teacher seeking an initial license in the Commonwealth who has not attained an industry certification credential in the area in which the teacher seeks endorsement.

The 2014 General Assembly approved House Bill 758 that amends and re-enacts Section 22.1-298.1 of the *Code of Virginia* regarding initial licensing in the area of career and technical education. The law became effective July 1, 2014. House Bill 758 states, in part, the following:

1.A. As used in this section: "Industry certification credential" means a career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a state professional license, or successfully completing an occupational competency examination....

D.6. Every teacher seeking initial licensure with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement.

2017-2018 VIRGINIA TEACHER-ELIGIBLE INDUSTRY CREDENTIALING ASSESSMENTS

The 2015 General Assembly approved HB 2137, which permits the Board of Education, upon request of the employing school division or education agency, to issue a provisional license to a teacher seeking an initial license in the Commonwealth who has not attained an industry certification credential in the area in which the teacher seeks endorsement.

The 2014 General Assembly approved House Bill 758 that amends and re-enacts Section 22.1-298.1 of the *Code of Virginia* regarding initial licensing in the area of career and technical education. The law became effective July 1, 2014. House Bill 758 states, in part, the following:

1.A. As used in this section: "Industry certification credential" means a career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a state professional license, or successfully completing an occupational competency examination....

D.6. Every teacher seeking initial licensure with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement.
