Agenda Item: Written Update on the Commonwealth of Virginia’s Critical Shortage Teaching Endorsement Areas for 2022-2023 School Year

Date: June 15, 2022

Title: Written Update on the Commonwealth of Virginia’s Critical Shortage Teaching Endorsement Areas for 2022-2023 School Year

Presenter: Dr. Joan B. Johnson, Assistant Superintendent for Teacher Education and Licensure

Email: joan.johnson@doe.virginia.gov Phone: (804) 371-2522

Purpose of Presentation:
For information only.

Executive Summary:
The Virginia Board of Education’s (Board) Regulations Governing the Determination of Critical Teacher Shortage Areas (8VAC20-650) provides the responsibilities of the Virginia Department of Education (VDOE) to administer and report on critical teaching shortages areas in Virginia to local school divisions, approved teacher preparation programs, other state agencies, and the public. In response to this requirement, data were obtained from the Supply and Demand Survey for School Personnel and the Instructional Personnel Data Collection sent by the VDOE to each of Virginia’s school division superintendents in October 2021, to determine qualifications for teachers and administrators. Information requested on the survey was based on school data reports as of October 1, 2021. These data were used to determine 2022-2023 critical shortage teaching endorsement areas in Virginia.

Additionally, the Regulations Governing the Determination of Critical Teacher Shortage Areas establish criteria for the shortage areas. Specifically, in Virginia, “critical shortage” may be defined in two ways: (1) shortages by subject matter as designated from the top ten academic disciplines identified in an annual survey of school divisions; or (2) a school personnel vacancy for which a school division receives three or fewer qualified candidates for a position.

Determination of critical shortages in specific teaching endorsement areas and their rankings are dependent on the method of calculation used. As such, specific shortage areas identified will differ among school divisions (i.e., geographic regions) and statewide analysis of subject matter designations.
The 2022-2023 top ten critical shortage teaching endorsement areas identified statewide were determined based on method number one as noted above. The top ten critical shortage teaching endorsement areas will be reported to the Virginia Retirement System and will be used to determine candidate eligibility for the Virginia Teaching Scholarship Loan Program according to the 2021 Appropriation Act. Endorsement areas were ranked according to the most severe academic teaching shortage areas.

The ranking is based on an aggregation of the following: a) total number of teaching positions that are unfilled; and b) teaching positions that are filled by teachers who are licensed, but who are teaching in academic subject areas other than their area of preparation. Data analyses include calculated rankings in these two areas as of October 1, 2021, as reported in the 2020-2021 Supply and Demand Survey for School Personnel and the Instructional Personnel Data Collection. All 132 school divisions responded to the survey. A total of 101,924 full-time equivalent (FTE) teachers as of October 1, 2021, were reported for SY 2020-2021 in the Instructional Personnel and Licensure annual data collection for school divisions. Rankings were totaled and the resulting sum ranked to determine critical teaching area shortages.

2022-2023 Ten Critical Shortage Teaching Endorsement Areas in Virginia

1. Elementary Education PreK-6
2. Special Education
3. Middle Education Grades 6-8
4. Career and Technical Education
5. Mathematics Grades 6-12 (including Algebra 1)
6. Science (Secondary)
7. Foreign Language PreK-12
8. English (Secondary)
9. History and social science (secondary)
10. Health and physical education

The purpose of the report is to provide the prescribed methodology for determining critical shortage teaching endorsement areas in Virginia and related top ten endorsement areas for 2022-2023.

Action Requested:
No action requested.

Superintendent’s Recommendation:
The Superintendent of Public Instruction recommends that the Board of Education receive this update.

Previous Review or Action:
No previous review or action.
**Background Information and Statutory Authority:**
The Board’s *Regulations Governing the Determination of Critical Teacher Shortage Areas*, provides the responsibilities of the VDOE to administer and report on critical teaching shortages areas in Virginia to local school divisions, approved teacher preparation programs, other state agencies, and the public.

The 2021 *Appropriation Act* requires the VDOE to report annually to the General Assembly on the critical teaching shortage areas in Virginia. In response to this requirement, data were obtained from the Supply and Demand Survey for School Personnel and the Instructional Personnel Data Collection sent by the VDOE to each of Virginia’s school division superintendents in October 2021, to determine qualifications for teachers and administrators. Information requested on the survey was based on school data reports as of October 1, 2021. These data were used to determine 2022-2023 critical shortage teaching endorsement areas in Virginia.

This is the last year the Supply and Demand Survey will be used to determine the critical shortage teaching areas for the state. The *Staffing and Vacancy Report* which includes data collected via the annual Positions and Exits Collection (PEC) will be used to determine the critical shortage teaching areas. This report enables the commonwealth and school divisions to comply with the reporting requirements necessary to address critical staff shortages of 140 positions including both licensed and unlicensed personnel by geographic region and measure growth and decline of required staffing levels. Additionally, the collection reduces the reporting burden on school divisions by replacing several older collections including the Supply and Demand report and the Instructional Personnel Survey.

**Timetable for Further Review/Action:**
No further review or action is anticipated. Following Board review, the Office of Teacher Education will post the annual report on the VDOE website.

**Impact on Fiscal and Human Resources:**
School divisions will continue to be responsible to report vacancies annually. The agency staff will absorb the responsibility of utilizing the report data to identify the critical teaching shortages.
