

Fall 2023 Growth Assessment (Effective for Fall 2024)

In the 2023-2024 school year, students in Virginia public schools will take growth assessments in Grades 3-8 Reading and Mathematics. Legislation passed in the 2021 Virginia General Assembly ([HB2027](#) and [SB1357](#)) requires these assessments be administered to students once in the fall and once in the winter (mid-year). In addition to the growth assessments, the Standards of Learning (SOL) tests for Grades 3-8 Reading and Mathematics will continue to be administered. Test items at, below, and above a student’s grade level may be delivered online via the computer adaptive algorithm as appropriate for the student. Please note that this test will begin with questions that assess either Grade 3 or Grade 2 Mathematics SOL, and the overall test may include test items that assess Grade 2, Grade 3, or Grade 4 Mathematics SOL. Students who meet the criteria for needing a paper test will receive Grade 3 Mathematics test items.

Grade 3 Mathematics Test Blueprint Summary Table

Reporting Category	Grade 3 Standards of Learning Eligible to Appear in the Fall 2023 Growth Assessment	Number of Items Fall 2023 Growth Assessment Computer Adaptive (CAT) Format	Number of Items Fall 2023 Growth Assessment Paper Format
Number and Number Sense	3.1a-c 3.2a-c	10	6
Computation and Estimation	3.3a-b 3.4a-d 3.5		6
Measurement and Geometry	3.6a-c 3.7a-b 3.8a-b 3.9a-c 3.10 3.11 3.12a-c 3.13	6	7
Probability, Statistics, Patterns, Functions, and Algebra	3.14 3.15a-b 3.16 3.17	4	5
Total Number of Items on Test		20	24

All Grade 2 and Grade 3 Mathematics SOL test items will include a “no calculator” picture and will be completed without the use of a calculator. Students who receive a grade 4 calculator-active item will have

the online calculator included with that question. Please refer to the list of [Online Mathematics Tools](#) available on the Grades 3-8 Mathematics Growth Assessments for additional information.
