

#276-22

**Commonwealth of Virginia
Virginia Department of Education
Superintendent's Memo #276-22**

DATE: December 9, 2022
TO: Division Superintendents
FROM: Jillian Balow, Superintendent of Public Instruction
SUBJECT: **2022-2023 Title I, Part A, Comparability Report**

To receive Title I, Part A, funds, a school division must verify comparability of services for Title I and non-Title I schools as stipulated in Section 1118(c) of the Elementary and Secondary Education Act of 1965 (ESEA). Virginia school divisions are required to verify comparability of services by completing the Title I Comparability Report on the [Single Sign-on for Web Systems](#) (SSWS) portal.

The 2022-2023 Title I Comparability Report will be available beginning Friday, December 9, 2022. Detailed instructions are provided with the web-based report. As a reminder, the two clarifications below have been made to the comparability report calculations to ensure compliance with ESEA requirements:

1. Although Section 1113(b)(1)(D)(i-iii) allows divisions to elect not to serve an eligible school that has a higher percentage of low-income families than schools being served if the required conditions are met, the skipped school must be included in the comparability calculations. If your division has skipped schools, the schools will appear in the pre-populated list of Title I schools for purposes of calculating comparability.
2. When preparing the comparability calculations for your division, only state- and locally-funded building level staff members who provide direct instruction may be

included in the calculations. Federally-funded staff members may not be included in the comparability calculations.

Once the comparability report has been completed, the division superintendent or superintendent's designee must electronically verify the report through SSWS. The report will not be submitted until this step is completed. **The report should be submitted no later than Friday, January 27, 2023.** The school division should maintain a copy of the entire verification report on file for audit purposes.
