Background Information

The 2015 General Assembly passed [House Bill 2137](#) that amended and re-enacted Section § 22.1-298.1 of the *Code of Virginia*, regarding teachers seeking an initial license with an endorsement in an area of career and technical education, effective July 1, 2015.

The 2015 legislation states, in part, the following:

1.A. As used in this section:

"Industry certification credential" means *an active* career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a professional license *in the Commonwealth*, or successfully completing an occupational competency examination.

D.6. Every teacher seeking *an initial license in the Commonwealth* with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement. *If a teacher seeking an initial license in the Commonwealth has not attained an industry certification credential in the area in which the teacher seeks endorsement, the Board may, upon request of the employing school division or educational agency, issue the teacher a provisional license to allow time for the teacher to attain such credential.*

Related legislation was first enacted in the 2014 General Assembly as referenced in [Superintendent's Memorandum No.150-14](#).
