Executive Summary

[Article VIII, Section 2](#) of the Constitution of Virginia requires the Board of Education to prescribe standards of quality for the public schools of Virginia, subject to revision only by the General Assembly. Section [22.1-18.01](#)(A) of the Code of Virginia states the following

To ensure the integrity of the standards of quality, the Board of Education shall, in odd-numbered years, exercise its constitutional authority to determine and prescribe the standards, subject to revision only by the General Assembly, by reviewing the standards and either (i) proposing amendments to the standards or (ii) making a determination that no changes are necessary.

Every two years, as required by § [22.1-18.01](#) of the Code of Virginia, the Board reviews the Standard of Quality for potential revisions. In accordance with this process, the Virginia Department of Education (“VDOE”) sought input from local school divisions. On September 25, 2023, VDOE staff sent out a survey to all school divisions asking them to rank from a list of possible prescriptions, their top priorities for consideration. VDOE staff has prepared a presentation summarizing the results of the survey and key statistical takeaways.
