

Winter 2023-2024 Grade 6 Reading Growth Assessment

(Effective for Winter 2024-2025)

In the 2023-2024 school year, students in Virginia public schools will take growth assessments in Grades 3-8 Reading and Mathematics. Legislation passed in the 2021 Virginia General Assembly ([HB2027](#) and [SB1357](#)) requires these assessments be administered to students once in the fall and once in the winter (mid-year). In addition to the growth assessments, the Standards of Learning (SOL) tests for Grades 3-8 Reading and Mathematics will continue to be administered. Test items at, below, and above a student’s grade level may be delivered online via the computer adaptive algorithm as appropriate for the student. **Please note that the winter 2023 computer adaptive test for Grade 6 Reading will begin with questions that assess [Grade 6 Reading SOL](#), and the overall test may include test questions that assess Grade 5, Grade 6, or Grade 7 Reading SOL.**

Test Blueprint Summary Table

| Reporting Category | Grade 6 SOL Eligible to Appear in the Winter Growth Assessment | Number of Items Winter Growth Assessment | Number of Items Winter Growth Assessment |
|---|--|--|--|
| | | Computer Adaptive Test (CAT) Format** | Paper Format |
| Demonstrate comprehension of fictional texts and use word analysis strategies* | 6.4a-e 6.5a-j | 7 (about 37% of the test) | 14 (45% of the test) |
| Demonstrate comprehension of nonfiction texts and use word analysis strategies* | 6.4a-e 6.6a-j | 12 (about 63% of the test) | 17 (about 55% of the test) |
| Total Number of Items on Test | | 19 | 31 |
| Total Number of Passages on Test | | 3 | 4 |

*Using word analysis strategies and word reference materials will be tested with both fictional and nonfictional texts.

**The online CAT includes multiple-choice questions and technology-enhanced items (TEI). The number of TEI on the CAT can range from 5% to 30% as the test meets the blueprint requirements and adapts to the performance level of the individual student.

Technology-Enhanced Item Types

There are different types of technology-enhanced items. Some examples include:

- drag and drop,
- hot spot, and
- hot text.
- [Introduction to TestNav 8: Multiple-Choice/Technology-Enhanced Item Tests](#) provides a brief description of the different types of TEI, including what is needed for a TEI to be considered "answered."
