

SB142

Issuance of a One-Year Local Eligibility License

Bill Patron: Senator Frank M. Ruff, Jr.

WHAT THE BILL DOES:

Requires the Virginia Board of Education to include provisions in teacher licensure regulations enabling school boards, with superintendent or board recommendation, to issue one-year, nonrenewable local eligibility licenses valid only within the issuing division. Eligible individuals must hold a baccalaureate degree, possess relevant experience or training, and not seek special education or higher licensure. The bill also establishes specific requirements, criteria, and conditions relating to a local eligibility license.

The current bill language has conflicting nonrenewable and renewable language. VDOE has requested additional clarification, but the Department will be using the more restrictive “nonrenewable” format until the conflict in the statute is resolved.

HOW DOES THIS IMPACT SCHOOL DIVISIONS?

This legislation provides divisions the option to employ licensure applicants that have received a baccalaureate degree from a regionally accredited institution of higher education and demonstrates experience or training in a subject or content area as the local school board and division superintendent may deem appropriate for the applicable teaching position or endorsement area. This license option allows more time for applicants to complete provisional licensure requirements. Divisions will support local eligibility teachers through the licensure process while they are teaching.
