

Uses of Title II, Part A Funds

Guidance on Allowable and Unallowable Expenditures

The Title IIA grant is intended to support teachers, principals, and other school leaders in their work to improve the overall quality of instruction and ensure equity of educational opportunity for all students. Below is a sample list of allowable and unallowable activities to support program planning activities. ESSA defines professional development as activities that are sustained, intensive, collaborative, job-embedded, data-driven, personalized or based on information from an evaluation and support system, and classroom-focused. Title II, Part A funds cannot be used to support stand alone, discreet professional development that does not connect to a larger school-wide or individualized plan. **Local Educational Agencies (LEAs) should use the Budget Narrative form to explain how Title II, Part A-supported professional development connects to a larger system, program, or vision that is consistent with the purposes of the grant.**

ALLOWABLE EXPENDITURES	UNALLOWABLE EXPENDITURES
<ul style="list-style-type: none"> • Salaries, stipends, or contractor/consultant fees for instructional coaches in public schools • Contractor/consultant fees for instructional coaches in non-public schools • Recruitment and retention initiatives such as signing bonuses, relocation costs, recruitment materials, salary differentials or incentive pay, certification or licensure costs, contracted professional development providers for public schools. • Stipends and/or substitute costs to participate in professional development or mentorship initiatives in public schools • Stipends allowed for non-public instructional personnel for after or before school, in summer and/or vacation time professional development • Stipends and/or substitute coverage that allows collaborative educator work, such as planning, peer observations, and curriculum writing in the public schools • Administrative costs for coordinating professional development programs for public and nonpublic schools. • Negotiated administrative fees for third-party contractors on behalf of nonpublic schools. • Conference fees, travel and hotel costs, meal reimbursements, and mileage reimbursements that adhere to state and federal travel guidelines for both nonpublic and public school educational personnel • Program development costs for allowable Title IIA-funded programs, such as conducting a needs assessment, contracting with program developers, or administering and analyzing surveys in the public schools • Materials, supplies, and equipment for use in professional development sessions that are reasonable and necessary to carry out development sessions in both the public and nonpublic schools; or for implementing collaborative educator work in public schools. • Reasonable benefits costs (i.e. per usual district policies) proportionately linked with FTEs/salaries identified in Codes 15 and 16 for public school personnel • Costs related to provision of professional development or implementation or analysis of programs and activities intended to meet ESSA objectives for both public and nonpublic schools • Salaries for class size reduction teachers in public schools 	<ul style="list-style-type: none"> • Professional development that is stand-alone, one-day, or short-term workshops with no connection to a larger school-wide or individualized plan or initiative for both public and nonpublic school personnel • Professional development or travel expenses for non-instructional personnel that are not related to supporting a sustainable series of professional development activities for a specific need. • Salaries/stipends for non-public instructional personnel during the regular school day. • Benefits costs for non-public personnel • Any direct reimbursement to a nonpublic school • Food and refreshments for both public and nonpublic school personnel (working lunches are allowed). • Materials and supplies that are not directly connected to professional development (e.g. individual teacher iPads that are used outside the scope of professional development environment, unrestricted training rooms for other than instructional staff in both public and nonpublic schools, white boards for classroom use, software programs for students, copiers, computers, carts and professional library that is unrelated to any specific professional development) • Materials and supplies that are not secular, neutral and nonideological • Payment of expenditures incurred by nonpublic schools without prior knowledge and/or authorization by an LEA.

Uses of Title II, Part A Funds

	USE OF FUNDS	CONDITIONS OF USE
PERSONALIZED PROFESSIONAL DEVELOPMENT	Instructional Coaching	Coaching programs are broadly defined as in-service professional development programs where coaches or peers observe teachers' instruction and provide feedback to help them improve. Coaching should be individualized, time-intensive, sustained over the course of a semester or year, context-specific, and focused on discrete skills ¹ . Common roles for coaches include: <ul style="list-style-type: none"> ▪ Instructional: Helps teachers implement effective instructional strategies, new ideas, often by observing a teacher and providing feedback, demonstrating a lesson, or even co-teaching. ▪ Curriculum: Excels at understanding content standards, how components of a curriculum link together, in addition to how to use the content in planning instruction and assessment. These individuals can ensure a consistent curriculum implementation throughout a school. ▪ Data: Leads conversations that assists teachers in analyzing data and then applying the data to strengthen instruction.
	Professional Learning Communities	PLCs are learning teams organized by subject, grade level, and/or special interest in which teachers meet consistently throughout the year to discuss issues around student learning, collect and analyze data, develop and try out instructional solutions, and assess the impact of these solutions. Research indicates that well-implemented PLCs support improvements in practice along with student learning gains ² . The most successful PLCs have an explicit focus on student learning, increase teacher empowerment and authority in decision making, and promote continuous teacher learning through joint study of research literature ³ .
	Principal Leadership	Leadership is second only to teaching among school related factors as an influence on learning ⁴ . Effective pre-service and in-service principal training programs ⁵ should be aligned with the 2015 Professional Standards for Educational Leaders (PSELs), and may include high-quality mentoring and coaching, peer observations, visits to other schools, principals networks and conferences, participation in professional development with teachers, and guided "walk-throughs" of schools to look at particular practices in classrooms and consider how to evaluate/improve learning and teaching.
	Teacher Leadership	Teacher leadership career pathways enable individual teachers to extend the reach of their expertise beyond their own classrooms ⁶ . The use of teacher leaders, rather than vendors, to perform coaching services related to instruction, curriculum, or data provides incentives for teachers, builds upon strengths, and fosters a more cohesive staff climate and culture while building LEA capacity to increase student learning and student achievement.
	Induction and Mentoring	High-quality mentoring and induction programs ⁷ provide new teachers with professional development, research-based resources, and formative assessment tools for beginning teachers, mentors, and school leaders, as well as technical assistance and capacity building for program leaders. In successful models, full-time mentors are carefully selected and receive more than 100 hours of training annually. Teachers receive two years of coaching, meeting with their assigned mentors weekly for a minimum of 180 minutes per month. Mentors and teachers work through a system of formative assessments, including tools to guide observation cycles and to develop teachers' skills in lesson planning and analyzing student work.
	National Board Certification	National Board Certification is a rigorous certification/professional development process, available in 25 certificate areas spanning disciplines from Pre-K through 12 th grade, that has been shown to improve student performance ^{8,9} . The National Board Certification process requires teachers to demonstrate standards-based evidence of the positive effect they have on student learning; exhibit a deep understanding of their students, content knowledge, use of data and assessments and teaching practice; and show that they participate in learning communities and provide evidence of ongoing reflection and continuous learning ¹⁰ .
	Other	If LEAs do not select from the above, they will be asked to provide evidence (strong, moderate, promising, or demonstrating a rationale) for the chosen professional development practice, which will include providing citations or completing a logic model.

Uses of Title II, Part A Funds

	USE OF FUNDS	CONDITIONS OF USE
OTHER ALLOWABLE USES OF FUNDS	Rigorous Academic Content	ESSA supports training teachers, principals, or other school leaders on strategies to integrate rigorous academic content into curriculum and instruction. This may include collaborative work or professional development to align curriculum and instruction to updated State Learning Standards. It may also include, but is not limited to, sustained, job-embedded professional development to increase teachers' content knowledge in dual or concurrent enrollment curriculum, Advanced Placement (AP) curriculum, and International Baccalaureate (IB) curriculum.
	Recruiting & Retaining effective teachers	ESSA supports the development and implementation of initiatives to assist in recruiting, hiring, and retaining effective teachers, particularly in low-income schools with high percentages of ineffective teachers and high percentages of students who do not meet the challenging State academic standards, to improve within-district equity in the distribution of teachers, such as: <ul style="list-style-type: none"> ▪ Providing expert help in screening candidates and enabling early hiring; ▪ Offering differential and incentive pay for teachers, principals, or other school leaders in high-need academic subject areas and specialty areas; which may include performance-based pay systems; ▪ Teacher, paraprofessional, principal, or other school leader advancement and professional growth, and an emphasis on leadership opportunities, multiple career paths, and pay differentiation; ▪ New teacher, principal, or other school leader induction and mentoring programs that are designed to improve classroom instruction and student learning and achievement, and increase the retention of effective teachers, principals, or other school leaders.
	Recruiting individuals from other fields	ESSA supports recruiting mid-career professionals from other occupations, former military personnel, and recent graduates of institutions of higher education with records of academic distinctions who demonstrate potential to become effective teachers, principals, or other school leaders.
	Evaluation/support systems	ESSA supports the development or improvement of a rigorous, transparent, and fair evaluation and support system for teachers, principals, or other school leaders that is based on evidence of student achievement and may include student growth. It should also include multiple measures of educator performance and provide clear, timely, and useful feedback to teachers, principals, or other school leaders.
	Effective teaching of ELL/MLL students	ESSA supports the development of programs and activities that increase the ability of teachers to effectively teach English language learners.
	Effective teaching of children with disabilities	ESSA supports the development of programs and activities that increase the ability of teachers to effectively teach children with disabilities, including children with significant cognitive disabilities. This may include the use of multi-tier systems of support and positive behavioral intervention and supports so that children with disabilities can meet the challenging State academic standards.
	Increased knowledge/ability to teach early childhood	ESSA promotes the development and use of programs and activities that may be geared toward increasing the knowledge base of teachers, principals, or other school leaders on instruction in the early grades and on strategies to measure whether young children are progressing. This may include increasing the ability of principals or other school leaders to support teachers, teacher leaders, early childhood educators, and other professionals to meet the needs of students through age eight, which may include providing joint professional learning and planning activities for school staff and educators in preschool programs that address the transition to elementary school.
	High quality instruction of STEM	ESSA supports the development and provision of professional development and other comprehensive systems of support for teachers, principals, or other school leaders to promote high-quality instruction and instructional leadership in science, technology, engineering, mathematics, and computer science.
	Implementation of formative assessments	ESSA supports the training, technical assistance, and capacity-building in local educational agencies to assist teachers, principals, or other school leaders with selecting and implementing formative assessments, designing classroom-based assessments, and using data from such assessments to improve instruction and student academic achievement, which may include providing additional time for teachers to review student data and respond.
	Supporting students affected by trauma and/or mental illness	ESSA supports the provision of in-service training for school personnel in techniques and support related to identifying and supporting students affected by trauma or mental illness, including the use of referral mechanisms, partnerships with outside organizations, or addressing school conditions for learning such as safety, peer interaction, drug and alcohol abuse, and chronic absenteeism.
Identification and support of gifted students	ESSA supports the provision of training to identify students who are gifted and talented, including high-ability students who have not been formally identified for gifted education services, and implementing instructional practices that support the education of such students, such as: <ul style="list-style-type: none"> ▪ Early entrance into kindergarten; ▪ Enrichment, acceleration, and curriculum compacting activities; and ▪ Dual or concurrent enrollment programs in secondary school and post-secondary education. 	

Uses of Title II, Part A Funds

	USE OF FUNDS	CONDITIONS OF USE
	Instructional services provided by libraries	ESSA supports professional development intended to improve the instructional services provided by effective school library programs.
	Training to recognize/prevent sexual abuse	ESSA supports the provision of training for all school personnel, including teachers, principals, other school leaders, specialized instructional support personnel, and paraprofessionals, regarding how to prevent and recognize child sexual abuse.
	Feedback mechanisms to improve working conditions	ESSA supports the development of feedback mechanisms to improve school working conditions, including through periodically and publicly reporting results of educator support and working conditions feedback.
	Career readiness education	ESSA supports training teachers, principals, or other school leaders on strategies to provide effective career/technical education and work-based learning to help prepare students for post-secondary education and the workforce.

	USE OF FUNDS	CONDITIONS OF USE
CLASS SIZE REDUCTION	Early Grade Class Size Reduction	Class size reduction programs must meet the following evidence-based criteria. The program must: <ul style="list-style-type: none"> ▪ Extend for multiple years during the early grades¹¹, with a focus on low-income and minority students¹²; ▪ Reduce class sizes to 15-18 students or fewer¹³ (including the use of co-teaching and floating teachers that bring the student to teacher ratio to one teacher per 15-18 students); ▪ Be accompanied by a rigorous curriculum, effective teachers, and a sustained, job-embedded professional development plan¹⁴.
	Class Size Reduction for Special Populations	ELL – Class size reduction programs may be utilized throughout K-12 to accommodate effective teaching of English language learners. Consideration should be given to the number of ELL speakers in one classroom, as well as the number of different languages spoken, whether languages are low incidence or predominate, and student proficiency levels; models may include teaching with certified ENL teachers, or co teaching in specific content areas, instructional aides providing evidence-based supports (multimedia, visuals, graphic organizers, etc). SWD – Class size reduction programs may be utilized throughout K-12 to accommodate the teaching of students with disabilities, through co-teaching or push-in programs with certified special education teachers beyond that which is required through an individual student’s IEP. Such classrooms should be accompanied by a rigorous curriculum, ongoing professional development, and possibly tracking of data to determine the efficacy of the model.
	Other	If LEAs do not select from the above, they will be asked to provide evidence (strong, moderate, promising, or demonstrating a rationale) for the chosen class size reduction model, which will include providing citations or completing a logic model.
