Virginia Department of Education
Superintendent's Memo #044-22

DATE: February 18, 2022
TO: Division Superintendents
FROM: Jillian Balow, Superintendent of Public Instruction
SUBJECT: **Digital Learning Integration Standards of Learning Alignments**

To support the implementation of the **Digital Learning Integration Standards of Learning**, the Virginia Department of Education is seeking nominations for individuals who are qualified and available to identify alignments between the Digital Learning Integration Standards of Learning and content area Standards of Learning and provide optional instructional strategies for use by educators. Nominees should be teachers, curriculum specialists, or other educators who have knowledge of the various content areas.

The selected educators will be asked to review a preliminary list of potential alignments, revise the alignments, and provide instructional strategies that may be used based on the identified alignments. Work may be conducted online and is to be completed by May 27, 2022.

Educators who wish to be considered for the work must submit an application (see **Attachment A**). All applications will require a professional reference and division-level approval (see **Attachment B**).

Educators will be selected based on expertise and experience in their content area and balanced regional representation. Completed applications are due by March 4, 2022, and selected educators will be notified by March 8, 2022. Work will begin the third week of March.

Educators who work outside of contract hours will be provided a stipend for time and quality of work.
