Item 135, paragraph B. 12., Chapter 10, 2006 Acts of Assembly, Special Session I

Executive Summary

Item 135, paragraph B. 12., of the 2006 Appropriation Act directs the Superintendent of Public Instruction to provide a report on the status of teacher salaries, by local school division, to the Governor and the Chairmen of the Senate Finance and House Appropriations Committees by December 1 of each year of the biennium.

Department of Education staff prepared the report based on Annual School Report (ASR) data submitted by each school division and regional program. Statewide and school division salary averages were computed for fiscal years 2006 and 2007. The report shows salary information from fiscal years 2005, 2006, and 2007 for comparative purposes. Year-to-year percentage change in salary averages is shown for statewide and division data.

According to these calculations, average salaries are expected to increase for classroom teachers, principals, and assistant principals from fiscal year 2006 to fiscal year 2007.

The average budgeted classroom teacher salary for fiscal year 2007 is \$49,252; this is a 4.24 percent increase from fiscal year 2006.

The average budgeted principal salary for fiscal year 2007 is \$86,409; this is a 4.23 percent increase from fiscal year 2006.

The average budgeted assistant principal salary for fiscal year 2007 is \$71,680; this is a 5.44 percent increase from fiscal year 2006.

NOTE: There is a difference between the average salary used in the NEA report and the average salary as published in the Annual Salary Survey Report. The NEA Rankings and Estimates average teacher salary includes instructional classroom teachers, substitutes, and homebound instructional teachers. The average teacher salary that is calculated and published in the Annual Salary Survey Report includes those positions included in the NEA average salary except substitutes, but also includes guidance counselors, librarians, instructional technology positions, and supplemental salary expenditures. The average salary shown below for Virginia is based on the NEA calculation.
